Starting fee: Individual race 100 SEK, Team race 500 SEK per team.

Handout parts are charged at retail prices. Motors and tires used in the individual race can be used in the team race, however depending on the number of members in each team, the number of motors and tires are restricted to the smallest team's allotment. Teams with more members have to choose which ones to use, and the others have to be left in parc fermé during the race.

Teams: We will try our best to make sure all get a spot in the team race. As this is a Nordic event there are two team slots per nation (Denmark, Finland, Norway and Sweden). If they are not filled by 15 May the organizer opens for others to take part in the team race. Please indicate in your registration for the individual race if you wish to run the team race as well.

Registration and info: Lars Harrysson at lars@embrey.se by 1 June 2023. National teams by 15 May 2023.
